

## **Regional sales office in Bangkok**

As from 1 August 2004 SKOV A/S has established a regional sales office in Bangkok, Thailand.

This office will be servicing SKOV customers on the Asian markets. Daily leader of the office is Thomas Hansen, who was appointed export manager for these markets on 1 April 2004. Thomas Hansen was trained at SKOV, where he worked as export manager until January 2003. After a brief employment with another international company in the ventilation business, Thomas Hansen returned to SKOV at the beginning of 2004. Thomas has been dealing with the marketing and sales of ventilation systems to the Asian markets for several years, which has given him an extensive knowledge of these markets, and he has been playing an active role in building up SKOV's present position there.

By establishing a regional office, SKOV strengthens its position in this region as one of the leading companies in the business of ventilation for animal production.
